

Project Title	Funding	Institution
Robotics and speech processing technology for the facilitation of social communication training in children with autism	\$0	University of Southern California
Feeding problems in children with ASD: Impact of parent education in modifying aberrant eating habits	\$10,000	Marcus Institute
Building tacting and joint attention skills with the use of an augmentative device	\$10,000	Rutgers, The State University of New Jersey
Folate rechallenge: A pilot study	\$10,961	Baylor College of Medicine
A double-blind, randomized clinical trial of levocarnitine to treat autism spectrum disorders	\$11,882	Institute of Chronic Illnesses, Inc.
Double-blind placebo-controlled evaluation of fluconazole	\$15,134	Center for Autism and Related Disorders (CARD)
Peer-mediated interventions for elementary school students with autism spectrum disorders	\$20,000	University of Colorado Denver
Measuring the effects of training parents to provide intervention via the Arizona Telemedicine Program	\$20,000	Southwestern Autism Research & Resource Center (SARRC)
Double-blind, placebo-controlled crossover study of glutathione, vitamin C and cysteine in children with autism and behavior problems	\$25,000	Children's Hospital Foundation, Norton Healthcare Foundation
Writing instruction for children with autism spectrum disorders: A study of self-regulation and strategy use	\$30,000	University at Albany, State University of New York
Peer-mediated interventions for elementary school students with autism spectrum disorders	\$30,000	University of Colorado Denver
National randomized double-blind, placebo-controlled vitamin/mineral study	\$30,000	Arizona State University
The effects of a reciprocal questioning intervention on the reading comprehension and social communication of students with autism spectrum disorder	\$30,000	The College of William and Mary
Transporting evidence-based practices from the academy to the community: School-based CBT for children with ASD	\$30,000	University of California, Los Angeles
Enhancing social communication for children with HFA	\$37,829	University of Haifa
Probiotics and vitamin D in ASD	\$50,000	Autism Research and Resources of Oregon (ARRO)
Acupressure and acupuncture as an intervention with children with autism	\$90,826	Kennedy Krieger Institute
Safety and efficacy of complementary and alternative medicine for autism spectrum disorders	\$100,000	University of California, San Francisco
Double masked placebo controlled trial of cholesterol in hypocholesterolemic ASD	\$100,000	Kennedy Krieger Institute
Parents and professionals attitudes to dietary interventions in ASD (PADIA)	\$109,658	Newcastle University
A randomized, double blind, placebo controlled study of fatty acid supplementation in autism	\$116,071	Medical University of South Carolina
Effectiveness of sensory based strategies for improving adaptive behaviors in children with autism	\$149,901	Thomas Jefferson University
Double-blind placebo controlled trial of subcutaneous methyl B12 on behavioral and metabolic measures in children with autism	\$150,000	University of California, Davis
Communication success and AAC: A model of symbol acquisition (supplement)	\$174,060	University of Kansas
Treatment of autism spectrum disorders with a glutamate antagonist	\$203,517	National Institutes of Health (NIH)

Project Title	Funding	Institution
Training outpatient clinicians to deliver cognitive behavior therapy to children	\$212,376	University of Colorado Denver
Evaluation of sensory integration treatment in ASD	\$336,344	Vanderbilt University
Communication success and AAC: A model of symbol acquisition	\$347,412	University of Kansas
Intranasal oxytocin for the treatment of children and adolescents with autism spectrum disorders (ASD)	\$801,970	Holland Bloorview Kids Rehabilitation Hospital
